New Contemporary Arts Collection from Art For Everyday Inc.™ *Manufacturer debuts new, streamlined products at K/BIS 2009*

Toronto, CANADA: Sending a clear message that the art of woodcarving has a dynamic place in kitchen and interior design, Art For Everyday Inc.™ (AFE) announces the new Arts Collection, designed to bring detail to even the most modern environment. Corner posts, island posts and corbels comprise the new collection, characterized by clean, contemporary lines and made from the finest North American hardwoods.

“In 2008, we made the statement that we will launch new micro collections every 12 months and will debut the new products at the Kitchen & Bath Industry Show (K/BIS) each spring. We’re excited to have our new Arts Collection ready to show to the design community in Atlanta this year,” says Soroush Mahmoodi, Application Specialist and Team Lead, New Product Development. “We always want to present new ideas and keep our offerings fresh,” adds Mahmoodi.

The first two series in the Arts Collection are the Beveled Art Series and the Molded Art Series. More unique products, named for their outstanding features, will follow as the year progresses. The collection draws inspiration from both Arts & Crafts styling and Art Deco motifs, and the application for these pieces is widespread as the look is extremely adaptable to any kitchen environment.

AFE is adding to its existing product lines of over 750 architectural woodcarvings manufactured at their Toronto, Canada production facilities. Known for custom carving capabilities and the ability to work with designers in custom applications, AFE can also produce custom sizes of standard items, including the new collection, to suit any project.

Pieces of the new collection as well as select pieces from AFE's award-winning *Modern Classic Collection* can be viewed in Booth C2015 at the Kitchen & Bath Industry Show (K/BIS) held at the Georgia World Congress Centre in Atlanta, GA from May 1st to 3rd, 2009.
